

Sound Map

Recording What You Hear in Nature

Steps:

- 1. Sit down or stand in one spot.
- 2. Title your page with the location, weather, and time.
- 3. Draw a star in the middle of the page to represent you!
- 4. Start a timer on a watch or phone. Listen for and record sounds.
- 5. Identify what is making the noise if you can. If not, describe what the noise sounds like or add music notes. Add some arrows in the direction the sound moved (optional).

Flip over the page to create your own sound map!
